# ALL ABOUT BURIALS FOR LAWN GRAVES

## WHY CHOOSE A PLAQUE?

A bronze plaque is a classic and enduring way for you and your descendants to honour your loved ones. The form and solidity of the bronze complements the natural beauty and softness of the lawns.

## YOUR OPTIONS

Each cemetery has a range of grave types. Lawn graves may or may not have a concrete beam on which the plaque can be mounted. Plaques may be attached to a concrete or granite rest and come in small, medium, or large sizes, with a natural or coloured finish. Most can be customised with motifs of your choice.

The size of the plaque is dependent on the memorial you choose and your cemetery location. Our Client Services consultants will show you the various options during your appointment.

## PLAQUE RECONDITIONING

When adding a second plaque to an existing memorial, it is worth considering how it will look against the older plaque. Older plaques can be reconditioned to restore the shine of the bronze and the condition of the finish or paint. The tarnish and old paint will be removed and the plaque polished and recoated, including a protective finish to minimise weathering.
